Touratech Suspension WTE Explore – SET for Yamaha Tenere 700 from 2019

The **Touratech Suspension World Travel Edition Explore Set** for the Yamaha Tenere 700 is the right choice for long distance riding and touring use. More performance and comfort for your Yamaha 700 Tenere with the Touratech Suspension **shock absorber Explore HP/PDS**. Whether you set off to ride through many curves or to have a nice tour with your friends, the great adjusting range allows you to get a better setting of balance and damping as you could with the standard components. The ExploreHP/PDS emulsion shock absorber can be adjusted via a **hand wheel that adjusts the hydraulic spring preload**, to be adapted to the load of the big travel luggage. The progressive fork springs **are perfectly matched to the fork on the Yamaha 700 Tenere**. They make the fork better suited to the demands of motorcycle touring. You will also experience a **significantly improved response and greater reserves in extreme situations**.

Facts at a glance:

- This Suspension SET is configured and adjusted ready for use based on our experience with the Yamaha Tenere 700.
- The parameters are: vehicle weight / shock absorber pivot point / design constraints / test rides.
- With this SET, the rear and front area of the motorcycle are adjusted and in perfect balance.

A Suspension SET which makes it easy and convenient to adjust your bike for different loading conditions.

Properties of the Yamaha 700 Tenere Typ Level2 shock absorber:

- The shock absorber housing is made of aluminium. This results in lowest possible weight.
- Fitted with special low-friction seals with integrated Teflon back-up ring for low wear and long durability of the shock absorber.
- Emulsion construction and finer responses of the shock absorber.
- Large 16 mm piston rod made of chromium-molybdenum steel for maximum stability and durability
- 46 mm damping piston with special Touratech setup.
- The suspension spacer is fitted with sturdy stainless steel bushings for the fastening screws. This gives the fastening screw a firm, backlash-free fit, even at highest loads.
- All assemblies and components are designed for intensive touring use.
- High End hydraulic preload via an easily accessible, well positioned hand wheel.
- QR barcode on the shock absorber with individual shock absorber information. This enables easy call-up of shock absorber-specific information by scanning with a Smartphone.
- Information on the basic setting of the shock absorber can be called up at any time. Reset is possible for incorrect setting.
- Fully service-enabled. This allows permanent maximum ride dynamics.

The basic setup fitted here is designed for riders up to 100 kg including luggage. Modifications are possible for a heavier rider (more than 100 kg) and/or if the bike is usually ridden with a passenger / with luggage. In this case, we individually modify the shock absorber to meet your needs by fitting a spring with a higher spring rate. Please fill out our suspension check form and send it back to us.
